

Air

16 April 1950

Head, Foreign Division A

Chief of Station, Berlin-Buckow

International

USAGB

1. At a meeting with the staff of Organization "A" which took place at their office 14 April 1949, I requested that WALLNER give me the address and telephone number of USAGB so that I could establish a direct connection with him. The ground had been prepared for this move some weeks ago when I arranged to see USAGB at WALLNER's headquarters, ostensibly for a talk about the PANKRAC complex. At that time, I also told WALLNER that I would visit the USAGB quite frequently and that later I would ask him to provide the address and telephone number.

2. This means that from now on the meetings between L. ¹ and USAGB and between USAGB and this case officer can take place openly so far as Organization "A" is concerned, and we no longer run the risk of a major incident if we are seen together. WALLNER believes, or was told, that the PANKRAC affair will require that these meetings take place fairly frequently.
